G. HOLIDAYS AND SPECIAL EVENTS

Holiday rates may be charged during the following national holidays, including adjacent weekdays and/or weekend days: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

H. LIVEBOARD

The Port defines a liveboard as any person who sleeps aboard a vessel more than fifteen (15) days in any month while the vessel is moored at the Marina. The number of slips available for liveboards increased, effective January 1, 2016, to 350. There are two categories of liveboards.

I. MANAGEMENT

The term "Management" shall be synonymous with Managing Director, Maritime, or his/her designees.

J. MANEUVERING

1. Maneuvering under sail within the confines of the Shilshole Bay Marina is prohibited. However, a vessel may maneuver under sail where that is the vessel's sole means of propulsion.
2. The movement of vessels within the moorage area (between piers) must be for the purpose of mooring, entering or leaving a slip only. Random cruising by any vessel is not permitted.
3. Vessels, vehicles, property, gear, or equipment must be parked, stored, moored or maneuvered in a safe and orderly manner.
4. The vessel harbor speed limit is four (4) knots and no wake.
5. Human powered crafts may only use the waters inside the breakwater to enter and exit the Marina. Using the waters within the breakwater for random cruising or training is not permitted without the express written permission of the Marina Management.

N. PAST DUE

O. PEAK AND OFF-PEAK SEASON

Off-Peak Season - October 1st through May 31st

P. PEAK WEEKENDS

Q. PORT CHARGES

S. RECREATIONAL VESSELS

Any vessel that is used solely for the purpose of enjoyment, sport, leisure or pleasure. Any vessel that is otherwise defined as a commercial vessel may be considered a recreational vessel when used by the owner or operator during a period of time where the use is solely for the owner or operator's personal enjoyment, sport, leisure, or pleasure and not combined with any commercial use as defined above.

T. RESTROOM COMPLETION

The Port defines restroom completion at Shilshole Bay Marina as the month customers have use of the new restroom building.

U. RETAINER LIST

The Retainer List is a separate waitlist for customers, who have declined their initial waitlist opportunity for a moorage slip and will not be ready to accept moorage within sixty (60) days of the offer, to retain their original waitlist application date if they would like the option in the future.

V. SEAWORTHINESS

Vessels moored in a Port harbor must, at all times, be completely seaworthy; meaning that it is operable and ready for immediate cruising in local waters. Vessels must be able to safely maneuver under their own power, using a propulsion system that is consistent with the vessel's original design plans, from its slip to another port of call and back to its slip. In cases where a vessel does not appear to have left its mooring for a long period of time and the question of operability arises, Marina Management may require a demonstration of the vessel's operability. Affixing tow ropes,

outboard engines or other power workarounds does not satisfy the propulsion requirement and may result in a notice of termination.

W. SMALL CRAFT

Small craft is defined as vessels less than 16 feet, including but not limited to kayaks, canoes, jet skis, and sailboards.

X. SUBLEASE

A lease by a tenant or lessee of part or all of leased premises to another person but with the original tenant retaining some right, responsibility, or interest under the original lease.

All expense and risk of loss or damage resulting therefrom shall be borne by the vessel owner, as shall the cost of any salvage services rendered by the Port.

DD. VIOLATION VESSEL

Any vessel entering and remaining at Shilshole Bay Marina without authorization; or remaining at Shilshole Bay Marina after moorage has been terminated, or any vessel, that in the opinion of Port personnel is a nuisance, in danger of sinking or creating other damage.

25. Vessels may be moved by the Executive Director for the protection of life or property or best utilization of the facility.
26. The movement of vessels within the moorage area (between piers) shall be for the purpose of

mooring, entering, or leaving a slip only. Among other things, no random sailing or cruising by motor vessels will be permitted. All Port of Seattle moorage facilities are no-wake zones.

27. Vessels, when unattended, must be securely moored with bow, stern, and spring lines of an adequate size and number to keep the vessel secure.
28. Posting of signs for the sale or charter of vessels while moored in Port premises shall be subject to the approval of the Executive Director.
29. No major repair work or outfitting, spray-painting, sandblasting, sanding, welding or burning on vessels will be performed in the marina. Painting, scraping, and refinishing of vessels when in the water is limited to minor touch ups that include a small area on the superstructure, deck and hull above the waterline. All minor painting, scraping and refinishing must be contained and all debris collected. Please note that state law prohibits hull cleaning of vessels treated with sloughing and ablative anti-fouling paints and time based compounds. Extensive repair work and bottom cleaning should occur in a permitted, commercial boatyard.
30. Unattended vessels will not remain moored at any fuel float.

HAZARDOUS MATERIALS & THE ENVIRONMENT

31. It is against the law to discharge hazardous substances, oil, cleaning products and untreated sewage into U.S. navigable waters. The owner, operator or person in charge of the vessel at the time will be subject to fines and charged for clean-up costs. If the responsible party fails to report the spill to appropriate authorities, higher fines and a jail sentence may be imposed. See [33 USC 1321](#). No garbage, trash, oil, cleaning products, fuel, debris, or other material, liquid or solid, shall be deposited in the water or on land areas of the Port facilities, or on any floats, or piers, except into containers provided for that specific purpose. Waste oils must be poured into special containers provided for that specific purpose. For more information on environmental regulations, see Shilshole's [Required Management Practices](#) (RMPs).
32. Discharging any material from vessels in a manner inconsistent with federal law is prohibited while in the Port premises. This prohibition includes discharge of sewage from toilet facilities. See Environmental Protection Agency regulations implementing the Clean Water Act, section 312 (standards for marine sanitation devices [MSDs]): [40 C.F.R. 140 et seq](#), [USC Title 33 Chapter 1 Subchapter O Part 159, Revised Code of Washington \(RCW\) 90.48.080, Washington Administrative Code \(WAC\) 173-201A](#), and Coast Guard regulations implementing CWA section 312, [33 C.F.R. 159, Subparts A-D](#).
33. The owner, operator, or person in charge of the vessel at the time of illegal discharge can be fined according to laws governing U.S. navigable waters. Vessels violating federal discharge laws shall be deemed in violation of this article and the moorage agreement and may be subject to termination of moorage. If a permit for living aboard is granted, management may require subscription to a sewage removal service and may request documents to confirm that such a contract has been entered into as a condition of the moorage agreement.

DOCK RULES

34. No storage is permitted on piers or fingers. Oily rags, open paints, or other inflammable or explosive material must not be stored in locker boxes, net lockers, or other Port buildings or facilities.
35. Fire hoses and other fire-fighting equipment are to be used only for the fighting of fires.

36. Storage of rowboats, skiffs, dinghies, rafts, nets, reels, and other items of equipment will be designated by the Executive Director. Any of the above items or other equipment or gear left without proper storage arrangements will be in violation of the rules and subject to being removed as a nuisance at the owner's expense.
37. Dock carts shall be returned to the top of the corresponding ramp or dock immediately after use.
38. Transfer of fuels, oils, lubricants, or other flammable liquids of any kind, from vessel to float/dock or from float/dock to vessel, is strictly prohibited. Fuel transfers are only allowed at designated areas such as the fuel dock. Please inquire at the marina office for assistance.

B. ENFORCEMENT

The Executive Director may request persons violating these regulations to leave Port premises and/or obtain the assistance of law enforcement officers to protect property, lives or preserve the peace. The Executive Director may interpret the reasonable intent of these regulations to carry out the purposes of these regulations. If a vessel; the owner of which has been notified to remove the vessel from the Port area, is not removed immediately, it may be impounded by the Executive Director, and may be removed by a private contractor, charges for which will be assessed against the vessel and/or its owner.

C. LIMITATION OF RIGHTS PRIVILEGES OR REMEDIES

Nothing contained in this Moorage Tariff or any Port moorage agreement shall be construed as a limitation of any rights, privileges, or remedies available to the Port under any applicable state and federal laws.

D. RECREATIONAL VESSEL REGISTRATION AND PROCEDURES

39. Registration

All recreational vessels shall be registered by the owner, charterer, or operator immediately upon arrival at the Marina Office. Vessels shall be subject to the moorage charges named in Item 3100, to be paid upon arrival of the vessel to the Marina.

3. Refunds and transfers must be approved by marina management.

45. Registration

All guest vessels must register and pre-pay for moorage fees immediately upon arrival at the Marina office or after office hours at the self-registration station located in the Marina Building. Proof of registration must be posted conspicuously on the vessel. Should a guest moorage vessel remain unregistered two hours after arrival, it may be subject to a Late Registration fee.

46. Restricted Use

Guest or transient moorage space will not be used for sale or brokerage of vessels or for other business purposes without specific approval of the manager. Vessels displaying signs or other indications that vessel is "for sale" or engaged in the solicitation of business or advertised as such in other communication channels will be charged two (2) times the daily moorage rate specified in this tariff.

Vessels staying longer than thirty (30) consecutive days will be subject to leasehold tax for all moorage fees paid and unpaid.

48. Unregistered Vessels

A vessel which remains at the Marina guest dock and is unregistered for a period longer than one (1) day may be impounded pending settlement of all charges. A vessel which moors at Shilshole Bay Marina, the owner of which is indebted to the Port for previous moorage, may be impounded immediately.

Vessels moored at Shilshole Bay Marina must, at all times, be completely seaworthy and ready for immediate navigation in local waters.

To avoid injury or damage to persons, property or the environment, vessels moored at Shilshole Bay Marina must be properly maintained in a safe and hazard free condition. A vessel owner who denies permission when requested for an on-board inspection by Port Management, and/or city, county, state or federal representatives, for purposes of determining or verifying the condition of a vessel shall be deemed in non-compliance with Port of Seattle regulations.

The foregoing notwithstanding, the Port is under no obligation to undertake the inspection of any vessel, and by undertaking such an inspection; the Port assumes no responsibility for the vessel's condition or safekeeping.

K. DISCHARGE OF SEWAGE

Discharge of sewage from vessels while moored at Shilshole Bay Marina is prohibited.

L. STORAGE ON THE PIER

N. ELECTRIC SERVICE AND UTILIZATION EQUIPMENT ONBOARD VESSELS

All service connections between the Port of Seattle outlets and the vessel, and all utilization equipment upon the vessel shall conform to the [City of Seattle Electrical Code](#) and/or the [State of Washington Electrical Code](#). (See ITEM 3120 (A) for electric rates.)

O. LIABILITY LIMITATIONS

The Port of Seattle does not accept any liability for damages to property or injury or death of individuals caused by, or resulting from, persons, corporations, agents, or employees performing a service to a private vessel moored or located on Port premises. The Executive Director shall be authorized to publish and enforce appropriate rules to ensure security and safety on Port premises including requiring appropriate hold harmless agreements, release agreements and evidence of insurance. Permission granted by the Executive Director shall be solely for regulation. The Port assumes no responsibility for any loss or damage resulting from the use of Port premises by said person, corporation, agent, or employee of a vessel owner. Work performed on vessels moored at Port premises must be accomplished in such a manner as to avoid interference with other users and must not constitute any hazard to persons or property. Such persons, corporations, agents or employees will comply with all Federal, State, City and Port rules and regulations.

P. RENTAL OF MOORED VESSELS

Moorage agreements and liveaboard status are valid only for the person(s) who entered into those agreements with the Port of Seattle, and are not transferable. Use of a moored vessel as a Bed & Breakfast, a rental dwelling or as lodging of any sort is expressly prohibited by the Port of Seattle, at any of its marinas, terminals, and moorage facilities. The advertising of vessels, through any media or format, as available for rental, any offers to allow renters, or the discovery of persons on board a vessel without the registered agreement holder present, may result in immediate termination of the moorage agreement.

Q. TERMINATION OF MOORAGE

Any vessel violating the moorage agreement or the rules and regulations pertaining to Shilshole Bay Marina or this Tariff shall be subject to termination of the agreement. The Port may terminate the moorage agreement of any vessel for any reason upon thirty (30) days' notice; or for a violation of the moorage agreement, or the rules and regulations pertaining to Shilshole Bay Marina or this Tariff, upon ten (10) days' notice. Notice shall be by personal delivery or by placing, in the U.S. Mail, a registered letter to the owner at his/her last known address, and by posting a notice on the vessel. The notice shall state that moorage is being terminated, that the owner has ten (10) days from the

date of the notice to remove the vessel from Shilshole Bay Marina if for a violation of the moorage agreement, Tariff or rules, or thirty (30) days in the case of termination for any reason other than such a violation of the moorage agreement, Tariff or rules, and that the vessel will thereafter be removed by the Port at the owner's expense. A vessel remaining at Shilshole Bay Marina after the notice period has elapsed will be considered a Violation Vessel.

R. REMOVAL OF VESSELS FOR NON-PAYMENT OF CHARGES

1. When a vessel owner fails to pay charges owing the Port, the Port may take reasonable measures, including but not limited to the use of chains, ropes, and locks, or removal of a vessel from the water to secure vessels within Shilshole Bay Marina, so that the vessels are in the possession and control of the Port and cannot be removed from Shilshole Bay Marina.

These procedures may be used if an owner mooring or storing a vessel at Shilshole Bay Marina fails, after being notified that charges are outstanding and of the owner's right to commence legal proceedings to contest that such charges are outstanding, to pay the Port charges owed or to commence legal proceedings to contest the charges. Notice shall be by placing in the U.S. Mail a registered letter to the owner at his/her last known address, and by posting a notice on the vessel. In the case of a transient vessel or where no address was furnished by the owner, the Port need not give such notice prior to securing the vessel. The notice shall set forth the charges owing, shall inform the owner of his/her right to commence legal proceedings to contest the charges, and shall state that the Port may terminate the moorage and seize the vessel if charges are not paid or legal proceedings are not commenced to contest charges. At the time of securing the vessel, an authorized Port employee shall attach to the vessel a readily visible notice. The notice shall be of a reasonable size and shall contain the following information:

- a. The date and time the notice was attached;
- b. A statement that if the account is not paid in full within ninety (90) days from the time the notice is attached, the vessel may be sold at public auction to satisfy the Port charges; and
- c. The address and telephone number where additional information may be obtained concerning release of the vessel.

The Port shall review its records to ascertain the identity of the owner or anyone with an ownership interest in the vessel. The Port shall notify the owner and anyone known to the Port to have an ownership interest in the vessel by registered mail in order to give them the information contained in the notification.

2. The owner may regain possession of the vessel by:
 - a. Making arrangements satisfactory to the Port for the immediate removal of the vessel from the moorage facility or for authorized moorage; and
 - b. Making payment to the Port of all Port charges, or by posting with the Port a sufficient cash bond or other acceptable security to be held in trust by the Port pending written agreement of the parties with respect to payment by the vessel owner of the amount owing, or pending resolution of the matter of the Port charges in a civil action in a court of competent jurisdiction. After entry of judgment, including any appeals, in a court of competent jurisdiction, or after the parties reach agreement with respect to payment, the trust shall terminate and the Port shall receive so much of the bond or other security as is agreed or as is necessary to satisfy any judgment, costs, and interest as may be awarded to the Port. The balance shall be refunded immediately to the owner at his/her last known address.
3. If a vessel has been secured by the Port under subsection (1) of this section and is not released

to the owner under the bonding provisions of this section within ninety (90) days after notifying or attempting to notify the owner under subsection (1), the vessel shall be conclusively presumed to have been abandoned by the owner.

4. Before the vessel is sold, the owner or anyone known to the Port to have an ownership interest in the vessel shall be given at least twenty (20) days' notice of the sale in the manner set forth in subsection (1) of this section. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and the amount of Port charges owed with respect to the vessel. The notice of sale shall be published at least once, more than ten (10) but not more than twenty (20) days before the sale, in a newspaper of general circulation in King County. Such notice shall include the name of the vessel, if any, the last known owner and address thereof, and a reasonable description of the vessel to be sold.
5. The Port may bid all or part of its Port charges at the sale and may become a purchaser at the sale. In the event no one purchases the vessel at a sale, or a vessel is not removed from the premises or other arrangements are not made within ten (10) days of sale, title to the vessel will revert to the Port.
6. The proceeds of a sale shall first be applied to the payment of Port charges. The balance, if any shall be paid to the owner. If the owner cannot in the exercise of due diligence be located by the Port within one (1) year of the date of the sale, the excess funds from the sale shall revert to the Department of Revenue pursuant to Chapter 63.28 RCW. If the sale is for a sum less than the applicable Port charges, the Port is entitled to assert a claim for deficiency.
7. Before the vessel is sold, any person seeking to redeem an impounded vessel under this section may commence a lawsuit in the superior court for the county in which the vessel was impounded to contest the validity of the impoundment or the amount of the Port charges owing. Such lawsuit must be commenced within ten (10) days of the date the notification was provided pursuant to Section (1), or the right to a hearing shall be deemed waived and the owner shall be liable for any charges owing the Port. In the event of litigation, the prevailing party shall be entitled to reasonable attorneys' fees and costs.
8. The Port shall at all times conspicuously post this tariff. Posted, in this instance, means that the tariff is available online and a copy is available in the Marina office.

S. REMOVAL OF VIOLATION VESSELS

A violation vessel may immediately and without notice be moved by the Port from Shilshole Bay Marina to another location. Notice will be given, or attempted to be given, prior to moving a vessel whenever a non-emergency situation exists. All expenses and risk of loss or damage resulting therefrom shall be borne by the vessel owner. In the event the vessel is moved to another marina, the vessel owner shall, in addition, be liable to the Port for the prevailing moorage rate and other fees customarily charged at the facility to which the vessel is moved. The Port shall proceed under item 2100 (X), if the only cause of violation is the non-payment of Port charges.

T. RETAINER LIST

For a fee, customers may request to be transferred from the Waitlist to the Retainer List with the date they were moved to the Retainer List.

If a customer is ready for a slip, they may contact marina staff and be placed back on the Waitlist with their original application date (the date the original application fee was paid). This does not guarantee them a slip immediately, but rather an offer in approximately 90 days based on current turnover rates.

The customer may remain on the Retainer List for up to two years. After two years, the customer will be removed from all POS Waitlists without notice.

Customers may reapply for moorage to get back on a Waitlist by submitting a new moorage application and paying the applicable fee.

U. DINGHY MONITORING

Moorage customers shall monitor their dinghies to keep them free of water or other accumulation. Dinghies that staff must pump out to prevent sinking will be subject to the Boat Pumping Fee. Repeated need for pump-outs may lead to termination of moorage.

V. MAST & GEAR STORAGE

Storage of masts or other gear may be arranged in Seasonal Dry Storage, as space is available, per management approval.

W. TARPS ON VESSELS

Tarps are allowed on vessels in the marina when used to cover work in progress, as per regulations from the [Required Management Practices](#), or for temporary problems. Tarps must look neat, be free of mold, mildew, oil, excess paint, or other contaminants, and be firmly secured in ship shape. Tarps shall not be used as long-term solutions to vessel problems such as leakage, damage, or rot; any problems covered by a tarp must be repaired in a timely manner.

X. ELECTRIC CAR CHARGING

Until such time that electric vehicle charging stations are installed at Shilshole Bay Marina, the outlets on lamp poles in the parking lot will be available for marina customers to charge electric vehicles.

- Access will be with an issued key after application and hold harmless agreement has been filled out and approved.
- The customer will receive an Electric Vehicle Charging Permit that must be hung from the car's rear view mirror when charging.
- Liveboard use will be prioritized, as there will be a limited number of outlet access permits issued.
- One charging area will be designated for motorcycles use only, and not charged a fee.
- Customers may ask for free reasonable access for emergencies, such as battery charging, or for reasonable residential uses such as vacuuming a car.

In order to terminate this monthly charge, the access key and Electric Vehicle Charging Permit must be turned in. If a customer loses an outlet key, there will be a substantial fee to rekey all the outlet covers and issue new customer keys. Vehicles that are found to be accessing light pole outlets without the posted charging permit may be unplugged by marina staff.

Abuse of the program by any of the authorized users may result in their moorage termination and suspension of the entire outlet access program, with all outlets being secured. Abuse in this case will include providing outlet access to individuals not listed on their application, or trying to circumvent the system by only paying for the first month and not paying in subsequent months. If the program is cancelled, fees will be refunded based on the day the outlets are excluded from public use.

Once the electric vehicle charging stations are installed the monthly outlet access fee will be discontinued and the outlets will be locked except for one-off requests for use. Keys must be turned

in after the program ends.
