All home port passenger cruise ships while at berth in Port Terminals must use either shoreside electrical power (where available), burn low-sulfur fuel, or use exhaust gas cleaning system technology operating in zero-discharge mode and in compliance with the fuel sulfur requirements of the International Maritime Organization’s (IMO) North American Emission Control Area (ECA), to operate the vessel systems once the vessel has been secured to the dock and until its preparation for departure begins. For the purpose solely relating to this Item, the term low-sulfur fuel consists of a fuel mixture with 0.1% sulfur or less. If any cruise ship intends to use a shoreside electrical connection while at berth and if shoreside electricity is not available, the vessel may continue to run its engines which are necessary to operate the vessels systems while at berth. Vessels shall always comply with IMO ECA requirements.
3. The Port may, at its option, for purposes of internal and external air quality and emission program planning, tracking, and communications, obtain from the vessel captain, owners or its representatives’ information about the methods by which ships achieve ECA compliance, (compliance as managed by USCG) about exhaust gas cleaning system operations and fuel use while inside ECA, and about the use of shore power at berth. The vessel captain, owners, or its representatives will provide copies of receipts, operational records, and vessel log documentation in a reasonable amount of time following a Port request.

SECTION FIVE, PART 1 – FREE TIME AND WHARF DEMURRAGE
Free Time Rules and Regulations

ITEM 5000
FREE TIME

(A) DEFINITION

The specific period during which cargo may occupy space assigned to it on Terminal property free of wharf demurrage or terminal storage charges immediately prior to the loading or subsequent to the discharge of such cargo from the vessel.

(B) COMPUTING FREE TIME

- (1) Cargo Other Than Empty Containers or Chassis:

Free time starts the first 7:00 a.m. occurring after cargo is received or unloaded onto the wharf from inland carrier, in the case of cargo received from a vessel, the first 7:00 a.m. occurring after completion of vessel’s discharge. On outbound traffic to a vessel, the day or days the vessel is loading are not counted. On inbound traffic from the vessel, the day the cargo is delivered to an inland carrier is counted to determine the applicable free time and demurrage or storage.

Specialized Note for Containerized Cargo:

Containerized cargo may be subject to free time rules and demurrage charges as carried in ocean carrier’s tariff. Cargo owners are therefore referred to vessel tariffs. In the absence of overriding ocean carrier tariff rules, free time will be granted and wharf demurrage assessed in accordance with rules, conditions, and rates named in this tariff.

- (2) Empty Containers and Chassis:

Free time starts and is computed and expires as outlined for “cargo” in part (1) of this item.

- (3) Transshipped Cargo, Containers, or Chassis:

Only one (1) free time period is allowed.

(C) FREE TIME PERIODS

Unless otherwise specified, free time periods are as follows:

<u>Subject to Notes 1 and 2 and Exception 1</u>	<u>Inbound</u>	<u>Outbound</u>
Cargo, NOS.....	5 days	5 days
Containerized Cargo (CY) (Subject to Exception 2).....	5 days	5 days
Containers, empty (Subject to Note 3 and Exception 2).....	5 days	5 days

Chassis, empty (Subject to Note 3 and Exception 2).....	5 days	5 days
---	--------	--------

- Note 1: Days are exclusive of Saturdays, Sundays, and legal holidays.
- Note 2: After the expiration of free time, wharf demurrage charges apply unless otherwise indicated.
- Note 3: Containers:
Only one (1) free time period is granted to containers. The period applies to a container received with cargo and later made empty or a container received empty and later loaded with cargo.
- Chassis:
When a chassis is being used in container movements to, from, or through the terminal, it is considered active. When not so used during a free time period, it is considered to be in idle status, and after the free time period, it is subject to storage.
- Exception 1: When sailing date of a vessel has been announced and the sailing date is delayed due to stress of weather, accident, breakdown, or other emergency, an extension of free time will be granted equivalent to the delay of the vessel, but not to exceed seven (7) days. This exception does not apply on cargo against which wharf demurrage and/or storage charges have accrued prior to the scheduled sailing date as announced.
- Exception 2: Provisions of Part (D) of this item do not apply.

(D) ASSEMBLING TIME

When space conditions permit, assembling time up to twenty-eight (28) calendar days beyond the regular free time allowance may be granted shippers for assembling lots of 200 metric tons or more for a particular vessel or shipment.

(E) EXTENSION OF FREE TIME AND/OR DEMURRAGE OR STORAGE

When, by reason of strike, boycott, walkout, or other condition affecting longshore labor supply or Port ability to provide, or permit, necessary functions of labor in connection with the receipt and delivery of cargo on a Port-wide basis, the Executive Director (ED) may declare a period of "Labor Emergency" to exist.

During the period of Labor Emergency, the duration of which shall be fixed by the ED in recognition of the nature of the emergency encountered, the congestion of facilities, duration of labor disruption, accumulation of cargo involved, and other similar factors, free time may be extended, demurrage charges and storage charges may be waived. Subject to Notes 1, 2, and 3.

Note 1: The duration of the Labor Emergency in no case may exceed a period concurrent with the period of actual work stoppage and five (5) workdays after.

Note 2: Cargo on free time shall be assessed storage at levels provided herein after expiration of free time.

Note 3: Cargo on demurrage at the onset of the period of Labor Emergency shall be relieved of the payment of demurrage charges during the period of Labor Emergency and shall instead be assessed storage charges for that period at the levels provided herein. Demurrage status shall be restored with the expiration of the Labor Emergency.

End of section, return to [General Index](#).

SECTION FIVE, PART 2 – FREE TIME AND WHARF DEMURRAGE
Wharf Demurrage Rates and Charges

ITEM 5020
WHARF DEMURRAGE

(A) WHARF DEMURRAGE DEFINITION

A charge assessed against cargo remaining in or on Terminal facilities after the expiration of free time unless arrangements have been made for storage.

(B) RATES AND CHARGES

Following the expiration of free time, shipments on hand on a wharf, on a floor, on a platform, or in a container partially loaded will be subject to demurrage. Demurrage starts at the expiration of free time and continues until the shipment is removed. For the assessment of demurrage, all days are counted, including Saturdays, Sundays, holidays, and the day the shipment is removed.

Demurrage is assessed on the basis of 1000 kg or 1 cubic meter, whichever basis creates the greater revenue as follows:

(1) Wharf Demurrage

	<u>Rate Per Day</u>	
	<u>Per 1000 kg</u>	<u>Per Cubic Meter</u>
All Cargo, NOS Inbound or outbound, except as provided in Note 1.....	\$1.58	\$1.10
 <u>Minimum Wharf Demurrage</u>	<u>Per Month Per Ocean B/L</u>	
All Cargo, NOS, except iron or steel products.....	\$42.17	
Iron or steel products.....	\$67.02	
 Note 1: Boats.....	 \$12.08 per lineal foot per day	

(C) WHARF DEMURRAGE CONTAINERS – APPLIES TO ALL TERMINALS OTHER THAN TERMINAL 91

After free time expires, all containers shall be assessed demurrage according to the outside length of the van or container in accordance with the following rate schedule in dollars:

CONTAINER SIZE IN FEET	DEMURRAGE CHARGE	
	Charge per day for the first five days or fraction thereof	Charge per day for each additional day over five days or fraction thereof
INBOUND		
20 feet.....	\$41.76	\$75.41
35-44 feet.....	\$80.71	\$155.61
45 feet & over.....	\$109.47	\$209.14
OUTBOUND		
20 feet.....	\$28.23	\$53.28
35-44 feet.....	\$53.28	\$108.54
45 feet & over.....	\$70.78	\$137.05

(D) MONTHLY STORAGE – CONTAINERS, TRAILERS, CHASSIS, AND CRANES – APPLIES TO TERMINAL 91 ONLY

Charge per month, in whole month increments (See Note):

<u>LENGTH OVERALL</u>	<u>RATE</u>
Less than 55 feet	\$272.75+ tax
55 feet or greater	\$350.00+ tax

Note: Monthly storage must be arranged in advance and unit must be located in a location designated by Port. Rate applies to maximum area utilized in a month for each length class. For example, if on any day of the month, two cranes greater than 55 ft in length and two cranes less than 55 ft in length are stored, but on all other days of the month one crane greater than 55 ft and one less than 55 ft are stored, the charges that month will reflect four cranes, two at the rate “55 feet or greater” and two at the “Less than 55 feet” rate. Port reserves the right to require relocation at any time at user’s expense upon 72 hours’ notice or may reposition and invoice user at cost for labor and equipment. SECTION SIX, PART 1 – EQUIPMENT RENTAL AND LABOR RATES
Equipment Rental Conditions and Rates

ITEM 6000
EQUIPMENT RENTAL CONDITIONS

(A) GENERAL

Equipment as listed, when available, will be rented at the convenience of the Port. All renting or use of equipment on Port property by user, renter, or operator shall be upon and subject to the following conditions and charges, the renting or use of which shall constitute an agreement with the Port to pay such charges and be bound by such conditions.

Port equipment is presumed to be in good operating condition when turned over to user, renter or operator; but the Port does not warrant the mechanical condition thereof. The Port will not be responsible for delays caused user, renter or operator by breakdown of equipment, by shut-off of electric current or other causes. The Port reserves the right to stop operation of its equipment at any time to make repairs that appear to be necessary.

By receiving possession thereof, user, renter, or operator of Port equipment agrees that upon termination of the period of use it will be returned to the Port in the same condition as when received, ordinary wear and tear alone accepted.

(B) COMPUTING TIME

Equipment rental starts at the time specified when equipment is requested or when operator time starts, whichever occurs first, and continues until equipment is released to the Port, subject to the following conditions.

Crane rental time is subject to the following:

- 4 hours minimum billed for the first half of day shift or night shift use
- 4 hours minimum billed for the second half of day shift or night shift use
- 5 hours minimum billed for crane use during hoot shift

The only adjustments made to this crane billing structure will be for late starts during the first shift of operations on a ship and early finishes on the last shift worked to finish a ship. In these cases, time will be billed for actual hours used. No deductions will be allowed for no work provided, downtime labor actions or breaks in activity of any kind.

(C) EQUIPMENT PLACED ABOARD VESSELS

When lift trucks are placed aboard vessels, twice the normal rental rate applies.

(D) RESPONSIBILITY

All Port equipment utilized in performing work is expressly understood to be under the direction and control of the user, and the user is responsible for the operation thereof and assumes all risk for injuries or damages which may arise or grow out of the use or operation of such equipment, except that which results from the negligence of the Port. It is incumbent upon the user to make a thorough inspection and satisfy itself as to the physical condition and capacity of the equipment, as well as the competency of the operator, there being no representation or warranty by the Port with respect to such matters.

All such equipment will be properly used and not subjected to abuse or more than normal wear and tear. If there is any such abuse or more than normal wear and tear, the user shall pay for the damage to such equipment.

The user, renter, or operator shall be responsible for loss or damage and cost of repairs, except that which results from the negligence of the Port. User, renter or operator of Port facilities, including but not limited to equipment, shall indemnify and save harmless the Port from and against all liability, losses, claims, demands, and suits for damages, including death and personal injury, and including costs of suit and attorneys' fees, incident to or resulting from its operations at the Port. This paragraph subject to [Item 1130](#).

SECTION SEVEN – DOCKAGE RULES, REGULATIONS, AND RATES

ITEM 7000 **DOCKAGE**

(A) DEFINITION

The charge assessed against vessels for berthing at a wharf, pier, piling structure, bulkhead structure, bank or for mooring to a vessel so berthed.

(B) BASIS FOR COMPUTING CHARGES

Dockage charges are assessed upon length-over-all (LOA) of the vessel. Length-over-all is defined as the linear distance, in meters or feet, from the most forward point at the stem to the aftermost part of the stern of the vessel, measured parallel to the base line of the vessel.

The Port will use the length-over-all of the vessel, as published in “Lloyd’s Register of Shipping.” If the length is not shown in the Lloyd’s Register of Shipping, the ships certificate of registry showing the length of the vessel will be accepted. Vessel owner or agent will promptly provide the Port its registration number upon request. The Port reserves the right to determine length over all of the vessel by measuring the vessel.

Note: Vessels at Berth 30 consecutive days or more may be subject to leasehold excise tax in addition to normal rates.

(C) DOCKAGE PERIOD - HOW CALCULATED

The period of time which dockage will be assessed shall commence when the vessel is made fast to an allocated berth or moored, or comes within a slip and shall continue until such vessel lets go and has vacated the position allocated. All time is counted and no deductions are allowed because of weather or other conditions.

(D) CHARGES WHEN A VESSEL SHIFTS TO DIFFERENT BERTH

When a vessel is shifted directly from one position to another berth or slip operated by the same terminal company, the total time at such berths or slips will be considered together when computing the dockage charge.

(E) VESSELS REQUIRED TO CHANGE BERTHS

A vessel not engaged in working cargo will be permitted its berth with the understanding that it shall vacate when the berth is required for a vessel to load or discharge cargo. A vessel on notice to move which refuses to vacate will be assessed dockage at five times its applicable rate, starting at the time vessel is noticed to vacate.

(F) DOCKAGE RATES:

Dockage rates will be assessed as follows unless otherwise specified in this tariff. Rates in dollars per 24-hour period or portion thereof.

<u>Length-over-all</u> <u>In Meters</u>		<u>Length-over-all</u> <u>In Feet</u>		<u>Charge per 24-hour Day</u> <u>Or Fraction Thereof</u>

SECTION NINE – MARINE TERMINAL TRUCK PROGRAM

ITEM 9000 **DRAYAGE TRUCK OPERATIONS**

In accordance with the Port's desire to achieve the air quality goals described in the Northwest Ports Clean Air Strategy, the Port seeks to reduce diesel emissions from drayage truck operations at its international container terminals ("Container Terminal" or "Container Terminals"). Accordingly, the following will apply to all Container Terminal tenants ("Tenants") that have incorporated by reference this tariff item in their leases or use agreements:

- (1) Effective on January 1, 2011, all trucks entering a Tenant's Container Terminal for the purposes of draying containers ("Drayage Trucks") to or from the Container Terminal must be engine model year 1994 or newer. Tenants will bar noncompliant Drayage Trucks from entering the Container Terminals.
- (2) The Port desires that by January 1, 2016, eighty percent (80%) of all Drayage Trucks entering a Tenant's Container Terminal will be engine model year 2007 or newer. Tenants will cooperate with the Port in collecting information regarding the progress being made to achieve the eighty percent (80%) goal.
- (3) Effective on January 1, 2018, all Drayage Trucks entering a Tenant's Container Terminal must be engine model year 2007 or newer. Tenants will bar noncompliant Drayage Trucks from entering the Container Terminals.
